

# VETS HELP VETS

## THE UKRAINE CHARITY WEBINAR SERIES

Dear colleagues around the globe

Last year, leading veterinarians from all over the world volunteered for a webinar series to support Ukrainian vets as they struggled to care for their patients in precarious circumstances. We are delighted to report that it was a great success, and together our efforts raised a significant amount for the Ukrainian Small Animal Veterinary Association (USAVA).

This year, the webinar series will support the Patron Pet Center in the Ukraine. Founded by Dr. Iryna Podvoiska, a veterinarian who was forced to move from the frontline city of Kharkiv to Kyiv, the Patron Pet Center is a dedicated veterinary clinic and shelter for wounded and abandoned pets rescued from the war zone.

We count on you as fellow veterinarians to register for the new Ukraine Charity Webinars. The recommended registration fee of €30 per webinar will be donated entirely to the Patron Pet Center.

Your registration counts – because it comes from the heart.

Scan this QR code to donate now.
